

**9-1-1 Telecommunicator Disability Awareness
Train the Trainer– Kansas City
Regional Police Academy
April 11th & 12th , 2019
8:30am-4:30pm both days**

The First Responder Disability Awareness Training project at Niagara University is pleased to announce a **Train the Trainer program for 9-1-1 Telecommunicators** personnel in the State of Missouri, to be held at the **Kansas City Regional Police Academy**.

Niagara University's First Responder Disability Awareness Training (NU FR-DAT) helps to both sensitize and educate on how to effectively identify, address, and respond to various disabilities that 911 professionals may encounter in the line of duty. The National Emergency Numbers Association (**NENA**) recognizes this program as the only comprehensive disability awareness training program for emergency telecommunicators.

This program is **developed strictly for 9-1-1 personnel** with the intent to TRAIN other telecommunicators. This is **NOT** a training session for those who do not intend to train their peers. Once trained, trainers will conduct the training and coordinate with Niagara University for ongoing reporting and certification for attendees.

Training materials and attendance are FREE. Out of state Attendees are subject to a \$350.00 registration fee. We hope you consider participating in this important training.
