

Firefighter/EMS Disability Awareness VIRTUAL Train the Trainer October 13th, 20th, & 27th, 2022 South Dakota Firefighter/EMS

The Niagara University First Responder Disability Awareness Training (NU FRDAT) program is pleased to announce a VIRTUAL Firefighter/EMS Disability Awareness Train the Trainer for **SOUTH DAKOTA firefighters and EMS personnel**.

If you are a firefighter or EMS personnel who has an interest in educating your peers on how to properly respond to individuals with disabilities, we invite you to register for the upcoming training session.

Developed with input from firefighters and EMS personnel from Missouri, New York and FDNY, FRDAT both sensitizes and educates emergency responders on how to effectively identify, address, and respond to various disabilities they will encounter in their line of duty.

This program is developed strictly for firefighters and EMS personnel with the **intent to TRAIN other firefighters and EMS** in our disability awareness curriculum. This is NOT a training for those who do not intend to train their peers. Once trained, you will have the responsibility of conducting the training and reporting your sessions to our office. **You will receive EMS credit hours for attending. Materials will not be provided until the first day of class, electronically.**

This is a **FREE** training. All attendees must pre-register online and be approved by the Project Director in order to attend. We hope you consider participating in this crucial training and help us disseminate this curriculum.

Date: October 13th, 20th, & 27th, 2022 (All Days must be attended to receive credit)
Time: 9:00am- 2:00pm CST each day
Zoom link will be provided the day before the training begins
